Dear Harold,

I just read in a publication & get that you had been in the hospital. It did say you were back at home which I was glad to hear. Brett (my son) and I wanted you to know we were thinking of you and hope your recovery is going well.

Visiting with you and being able to discuss the association we considered to be a special event in our lives which we will never forget. I am going to get to go to Dallas in November for the COPA meeting. I hope it is interesting.

Thanks again to you and your wife for letting us into your home.

Sincerely,
Kurt Meisel
